

<Your name here>,

We here at MegaCorp would like to formally welcome you to our red team! After your overwhelming success and gigantic reputation for skill and ability at <University Name here>, we hope that you have a good time here with us and can provide value to our team.

As you know, MegaCorp is a conglomerate of some of the biggest companies in the world that do... stuff? We're not really sure, actually. The computer tells us who to buy, and we find people dumb enough to give us the money we need to buy them. That's where you come in.

We've recently acquired Quentrian. Fun name, no? They do... something? We think they're a tech company. We're not entirely sure. That's why we need you! The board has a couple of questions that we've listed out at the bottom of this document. It's important for your first engagement that you try your best to give the board as much detail as possible when answering your questions. We really go in blind when we buy these companies, and we're trying our best to make sure that we're not on the hook for anything nefarious.

You only have a few hours. Everything you need to get started is in this packet.

Good luck,  
Marcus

#### Questions:

- Who is currently running Quentrian?
- What is Quentrian's main product?
- Does Quentrian make money in any other way?
- What is Verilicense?
- How is Verilicense involved?
- Who is Adam Adamson?
- Where is Adam Adamson?
- Where is Quentrian vulnerable? Should we be concerned?
- Is there any information beyond this that you feel is apt to share with your bosses at MegaCorp?
- Please write a detailed report describing your experience during this engagement and how you came to the conclusions that you did.

# Quentrian

Hello there! We were very excited to hear about MegaCorp coming to town and taking us on as their latest acquisition! In order to help you learn more about us, we've decided to give you a couple of different things you might need.
